

Custom Traffic Vehicles

Built for purpose

Uphire can upgrade your existing traffic ute or fit-out a new vehicle. We are fully equipped to, and experienced in, customising traffic management vehicles. Our qualified team can manage the complete design and configuration of the build, ensuring that every vehicle is made to comply with regulatory standards.

Extras include, but are not limited to:

- » Airbag suspension
- » Amber warning lights
- » Arrow board installation
- » Dual battery system
- » Sign cage storage
- » UHF radio installation

Convenience and Quality

Uphire can provide you with a solution to suit any budget. Bring your own vehicle, or, we can organise a complete package which includes the vehicle itself and installation of extras.

- » New builds
- » Retro fit-outs

Traffic Utes

Customised to suit your needs and budget. Uphire will configure your vehicle to ensure compliance with regulatory standards.

Cone or Bollard Trucks

Improve the efficiency of setting up and packing down your worksite with a cone or bollard truck from Uphire.

Uphire can accommodate your vehicle customisation needs. Call us to discuss your hire needs on 1300 071 007.
